

Automatic Fire Alarm System Agreement

AFASP Code of Conduct

Issued under *Automatic Fire Alarm System Services Agreement*

Field Operations Division

1 Purpose

- 1.1 The purpose of this document is to describe the professional, fair and ethical code by which Automatic Fire Alarm Service Providers (AFASPs) agree to conduct their business under the *Automatic Fire Alarm System Services Agreement*.

2 Introduction

- 2.1 Even with the best intentions by all parties involved, problems may arise during the conduct of business in any area. The business of provision of third party Automatic Fire Alarm (AFA) services to Customers is no exception in this regard. AFASPs will:

 - (b) Not represent that it is the sole provider of FRNSW AFA System connections or monitoring services;
 - (c) Not engage in misleading or deceptive conduct.
- 3.2 Act in a manner consistent with professionalism, and fair and ethical dealing towards FRNSW, the public, and other AFASPs.
- 3.3 Always inform clients and prospective clients of the correct company or business name of the AFASP (as identified on the *Automatic Fire Alarm System Services Agreement*), and will not represent that a trading name is itself an AFASP.
- 3.4 Consult with FRNSW on all critical issues as they arise, and cooperate with FRNSW and with other AFASPs to resolve such issues.
- 3.5 Use information provided by FRNSW only for the purpose for which it is provided, and which is stated at the time of provision.
- 3.6 Comply with any requirement stated by FRNSW to maintain confidentiality of any disclosed information.
- 3.7 Not use information related to any third party for the purposes of excessive solicitation or other invasions of the privacy of these third parties.

- 3.8 Report immediately in writing to FRNSW any known or suspect:
- (a) Breach of this *AFASP Code of Conduct* (AFA-P-32), together with reasons;
 - (b) Other unfair or unethical behaviour or practices together with reasons.
